Fryer Dump Station

Henny Penny portable dump stations help improve frying production, save on counter space, and offer flexibility of use and location.

The FDS 100 is a compact, portable fryer dump station that uses a perforated stainless steel insert.

The FDS 200 is designed with the same dimensions and profile as the 320 series open fryers. Cooked product is dumped into a perforated stainless steel insert. Excess oil drains into a separate pan.

Both models are available with optional 120 V 0.750 kW heat lamp.
