# Express Profit Center

**EPC 200**

EPC 200 express profit center 2-ft unit on standard casters

Henny Penny express profit centers present an excellent solution for retailers seeking to expand hot food impulse sales and cross-merchandising opportunities.

These attractive cases not only offer mobility with “grab-n-go” convenience: they display prepackaged hot food safely *for up to 4 hours!*

Innovative FreshLock™ air curtain technology directs a continuous flow of heat across the open front of the case forming an effective barrier between ambient conditions and the case’s internal climate. This air “curtain” not only conserves heat but promotes even heat flow throughout the case, eliminating cold spots.

The EPC 200 is a compact case with a narrow 2-foot facing that fits easily into checkout lanes and other key spots where bigger cases won’t work. The EPC also comes standard with casters and a 120 V cord and plug so it can be easily moved into high-traffic locations at any time.

### Air Curtain locks in 4 hour holding!

FreshLock™ air curtain technology secures interior climate for safe holding of hot fresh food for up to 4 hours under the following conditions:\*

- Ambient temperature: 70°–74°F (21°–23°C)
- Product: whole chickens 3.0–3.5 lb (1.4–1.6 kg) in domes (Pactiv CNC-6007)
- Chickens at core temperature of 180°–190°F (82°–88°C)
- Shelf heat at recommended settings
- Unit operated at rated voltage

\* Safe holding times may vary depending on product

Long-lasting, energy saving LEDs provide brilliant lighting while reducing maintenance costs and environmental impact.

Each shelf’s temperature settings can be adjusted separately. Shelving is lightweight, adjustable, and removes easily for cleaning.

### Standard features

- FreshLock™ air curtain secures climate for longer holding times and less product waste
  - Reach-in grab-n-go convenience
  - Even heating throughout case (under ideal holding conditions)
- Compact footprint and narrow 2-ft facing—versatile applications
- Low-energy, long-life LED lighting for brilliant product presentation and reduced environmental impact
- Clear side panels for added product visibility
- Black matte finish on main cabinet
- Easily relocated throughout store for excellent merchandising capabilities
- 2 lightweight, adjustable angled shelves
- Heated shelves and deck with independent temperature controls
- Flush mounted control pad with temperature display
- Front and side protective bumpers
- Stainless steel construction for easy cleaning and long life
- 4 heavy-duty casters, 2 locking
- 120 V cord and plug
